FRVIS Release- ELT Modifications

The Division of Motorist Services implemented a statewide software update related to the statutory mandatory Electronic Lien and Title (ELT) program in February 2013 that became effective March 1, 2013.

Previously, if you did not mark the box on the HSMV 82040 that you wanted the title either electronic or paper, the default was for a paper title (unless there was an existing ELT Lienholder).

After March 1, 2013, when the box is not marked on the HSMV 82040, and there is no ELT lienholder, the default is for the title to become or remain electronic.

Also, on the HSMV 82040 the form says to "check this box if you are requesting the certificate of title to be printed". If that box is not marked and there is not an ELT lienholder the title will remain electronic.

The emphasis of the DHSMV is to move all vehicle titles to electronic unless specifically requested to be on paper.
